

# BEHAVIOR STARS

Students will begin each day on GREEN – “Ready to Learn.”  
The goal for every child is to stay on GREEN for the day!  
The Behavior Stars chart is a behavior management system.  
To manage student behavior some students need positive reinforcement or visual reminders to do their personal best. Students that consistently demonstrate role model behaviors will not always move up BLUE or PURPLE every day. The goal of the system is to encourage specific behaviors by reinforcement as needed. Students may have different behavioral goals on different days. Each student’s individual needs can be met by this system. If your child has an ORANGE or RED day, please be sure to spend time setting a goal for the next day’s behavior. *The student’s WRITTEN GOAL must be turned in the following day as part of that night’s homework.* Thank you for your support!
